

Dear Supplier,

The State Purchasing Division (SPD) is modernizing how we do business with our supplier community and implementing a new eProcurement system. In preparation for this upcoming implementation, SPD requires **all suppliers** to register in the **Euna Supplier Network (Bonfire) – State of New Mexico Supplier Portal**.

Please take a few minutes to register and complete your profile by visiting:
<https://generalservices-state-nm-us.bonfirehub.com/>

Please note: Even if your company is already registered in Euna Procurement, you must also register within the State of New Mexico Supplier Portal.

This software is available for access and use at no cost to vendors. The State of New Mexico General Services Department endorses the free use of this software and does not endorse any specific eProcurement system. Any additional services vendors may seek between this software company or others are at the sole discretion and responsibility of the involved parties and not the State of New Mexico General Services Department.

If you need assistance with registration, please contact:

(505) 795-1894

(505) 670-1561

(505) 469-2248

(505) 469-1092

(505) 469-1635

Or email: support.bonfire@eunasolutions.com

eProNM, is still SPD's current platform for your supplier portal. Please continue registering through eProNM to receive public opportunity notifications and respond to public opportunities.

SPD appreciates your partnership and looks forward to working with you through this transition.

SPD will share additional information regarding public opportunities and support resources in the coming months to ensure a smooth transition. Please also check the SPD website regularly for updates and communications regarding the new eProcurement platform:
